Re: Spring River Meter Order
File No(s). xxxxxxxx

Dear Sir/Madam:

Enclosed is an Order requiring that the owner of the point(s) of diversion authorized under the file numbers shown above install water flowmeters on the authorized point(s) of diversion by December 31, 2008.

This Order requires your immediate attention. Please read it very carefully, as it affects the use of the point(s) of diversion and sets forth deadlines you must meet in order to preserve your legal rights. This is the only notice you will receive prior to the deadline for installation of water flow meters.

The Chief Engineer is requiring the installation of water flowmeters on all points of diversion within the Spring River Basin for which meters previously have not been required. The purpose of requiring the installation of water flowmeters is to meet Kansas Water Plan recommendation to have water flowmeters installed on all diversions by 2015 and to provide accurate water use data to enable the Chief Engineer to manage the water resources of the State within the Spring River Basin.

The deadline for installing water flowmeters will be enforced. Enforcement may include civil penalties and/or modification or suspension of the water right or use of water under this Water Right, Appropriation of Water or Term Permit. Any request for an extension of time to install the required water flowmeter(s) must be made in writing on a form provided for that purpose no later than December 31, 2008, and must state compelling reasons why additional time is needed. You may obtain an extension request form by contacting the Topeka Field Office.

Enclosed are a copy of the Chief Engineer's specifications for the water flowmeters, a partial list of meters that have been found to be acceptable if installed and maintained correctly, and a Report of Installation of Water Flowmeter form. A separate form must be filled out for each flowmeter that is installed. The form must be submitted within 30 days after completion of installation the required water flowmeter to the Topeka Field Office at the following address: Division of Water Resources, Topeka Field Office, 109 S.W. 9th Street, 1st Floor, Topeka, Kansas 66612-2216.

If a water flowmeter currently is installed, a Report of Installation of Water Flowmeter form must be submitted by May 1, 2008. Additionally, meter readings must be included on the annual water use reports submitted to the Chief Engineer by March 1 following the end of each calendar year.

Any appeal of the enclosed Order must be made within 30 days to a Kansas court of competent jurisdiction, such as the District Court of Shawnee County, pursuant to the Kansas Act for Judicial Review and Civil Enforcement of Agency Actions (K.S.A. 77-601 et seq.). Any party seeking judicial review must also serve notice upon: H. David Starkey, Chief Legal Counsel, KS Dept of Agriculture, Legal Section, 109 SW 9th Street, 4th Floor, Topeka, KS 66612.

If you have any questions, please feel free to contact the Topeka Field Office at 785-368-8251. When you contact us, please refer to the above referenced file number(s) and indicate you have questions regarding this meter order.

Sincerely,

Katherine A. Tietsort
Water Commissioner

XXXXXXXXXXXXXXXXXXXX

File No(s). xxxxxxxxx

**ORDER REGARDING INSTALLATION OF WATER FLOWMETERS
SPRING RIVER BASIN**

The Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, under authority of Kansas Statutes Annotated (K.S.A.) 82a-701 *et seq.*, after due consideration, hereby makes the following Findings and Order:

FINDINGS

1. The Chief Engineer is required to control, conserve, regulate, allot, and aid in the distribution of the water resources of the State pursuant to K.S.A. 82a-706.
2. The Chief Engineer is authorized, pursuant to K.S.A. 82a-706c, to require the installation of water flowmeters and has adopted minimum specifications for such meters. K.S.A. 82a-706c also authorizes the Chief Engineer to require water users to report the reading of such meters at reasonable intervals.
3. The Kansas Water Plan recommends the installation of water flowmeters on all non-domestic points of diversion by the end of calendar year 2015.
4. The installation of totalizing water flowmeters on all surface water and groundwater points of diversion located within the Spring River Basin, with the exception of those points of diversion used solely for domestic purposes or authorized by temporary permits, will implement the recommendations of the Kansas Water Plan and provide accurate water use data to enable the Chief Engineer to manage the water resources of the State.
5. The points(s) of diversion authorized by the Water Right(s), Appropriation(s) of Water or Term Permit(s) identified above is/are within the Spring River Basin and is/are not used solely for domestic purposes or authorized by a temporary permit(s).

ORDER

NOW, THEREFORE, it is the decision and order of the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture:

1. That the owner of the Water Right(s), Appropriation(s) of Water or Term Permit(s) identified in this order shall install a totalizing water flowmeter which meets or exceeds specifications adopted by the Chief Engineer on each authorized point of diversion no later than **December 31, 2008**.
2. The totalizing water flowmeter shall be maintained in operating condition satisfactory to the Chief Engineer as set forth in K.A.R. 5-1-8.
3. The owner of the Water Right(s), Appropriation(s) of Water or Term Permit(s) shall notify the Chief Engineer, in writing, within 30 days of completion of the meter installation required under this order. Such notice shall be provided on a Report of Installation of Water Flowmeter form obtained from the Division of Water Resources.

- 4. If a water flowmeter was installed on any point of diversion prior to this order, the owner shall notify the Chief Engineer, in writing, by **May 1, 2008**. Such notice shall be provided on a Report of Installation of Water Flowmeter form obtained from the Division of Water Resources. Any water flowmeter installed prior to this order, installed according to specifications at the time of the installation and maintained in accordance with those specifications, shall be considered in compliance with this order unless the meter's accuracy is in question.
- 5. The owner of the Water Right(s), Appropriation(s) of Water or Term Permit(s) shall report on the annual water use report, pursuant to KSA 82a-732 and KAR 5-3-5e, by March 1 following the end of the calendar year in which the meter was installed:
 - A) Usage for the portion of the year the diversion was not metered, and
 - B) Meter readings for the portion of the year the diversion was metered,
 The owner shall report meter readings each subsequent year on the annual water use report thereafter.
- 6. The conditions of this order requiring installation, maintenance and use of water flowmeters shall become conditions of the Water Right(s), Appropriation of Water or Term Permit(s) identified in this order.
- 7. This is a final order of the Chief Engineer. Any appeal of this order must be made within 30 days to a Kansas court of competent jurisdiction, such as the District Court of Shawnee County, pursuant to the Kansas Act for Judicial Review and Civil Enforcement of Agency Actions (K.S.A. 77-601 et seq). The agency officer who will receive service of a petition for judicial review on behalf of the Kansas Department of Agriculture is H. David Starkey, Chief Legal Counsel, Kansas Department of Agriculture, Legal Section, 109 SW 9th Street, 4th Floor, Topeka, KS, 66612.
- 8. Reconsideration pursuant to K.S.A. 2006 Supp. 77-529. Within 15 days after service of this order any party may file a petition for reconsideration with the chief engineer, stating the specific grounds upon which relief is requested. The filing of a petition for reconsideration is not a prerequisite for seeking judicial review.
- 9. This order contains terms, conditions, and limitations imposed by the Chief Engineer on the referenced Water Rights(s), Appropriation(s) of Water or Term Permit(s). Failure to comply with the provisions of this order may result in civil penalties of up to \$1000 per day of violation and/or the modification or suspension of the water right or use of water under this water right or appropriation of water permit pursuant to K.S.A. 82a-737.
- 10. The Chief Engineer specifically retains jurisdiction in this matter to make such changes, additions, or deletions to this order, as he deems necessary in the public interest.

Dated at Topeka, Kansas, this 7th day of January, 2008.

David W. Barfield, P.E.
Chief Engineer
